

Biomedical Proteomics Facility (BTF)

Equipments:

- Ultra pure water system
- Liquid nitrogen
- Ultra centrifuges
- Spectrophotometers
- Lyophilizers
- Scintillation counters
- Ultra low freezers
- HPLCs
- Real-time PCR (LightCycler)
- FACSCalibur (BD)
- Nucleic acids sequencer
- Fluorescent microscope and photographic camera.
- Class II safety cabinets
- CO2-incubators
- ELISA readers
- COBAS Amplicon (2)
- Inverted microscopes
- Table-top centrifuges (refrigerated),
- Sterilizing facilities
