

Protein and Nucleic Acid Core Facility

Equipment:

- Water baths
- EC 100 Electroporator
- Hot plate-Stirrer
- Balance
- Vortex mixer
- Lab Line Incubator
- Small -20°C Freezer
- Beckman 350 pH Meter
- Microcentrifuge
- Belly Dancer Shaker
- Small and Large Horizontal Gel Apparatus
- Mini Gel and large gel apparatus for SDS-PAGE
- Single Burner Propane Stove
- Propane disposable Fuel tanks
- Velveteen Squares Replica Plating
- Revco Ultima II
- VERSADoc imaging system
- DNA Sequencing System
- FB-SEQ-325 Fisher Biotech
- UV crosslinker FB-UVXL-1000
- Mini Hybridization Oven
- AKTA Purifier system with fraction collector (GE Healthcare)
- HPLC (Waters)
- Nucleofector II (Amaxa Biosystems)
- Proteomaster (Roche Biotechnology)
- Experon Automated Electrophoresis system (Bio-Rad)
- Bacterial shakers (2).
